Thank you, (b)(6). It was great talking to you, too! I appreciate your involvement and look forward to the INRMP.

Jenny

Hi Jenny,

It was great chatting with you yesterday. Thank you for reaching out to the Navy to get an understanding of the work we do as a team with the SWFSC/NMFS West Coast Region and the Port of San Diego and how it benefits sea turtles in San Diego Bay. Jessica and I are in the midst of our annual INRMP Metrics review with NMFS, the USFWS, and other regulatory agencies. This process allows us to validate the INRMP on an annual basis. Jess and I will send you a response to your INRMP request early next week and the INRMP will be sent via AMRDEC simultaneously.

Thanks again for inquiring of the Navy for this information,
