To: dennis.feltgen@noaa.gov <dennis.feltgen@noaa.gov>

Hello, my name is Audrey McNamara, I am a reporter at The Daily Beast. I'm reaching out about a map of Hurricane Dorian's trajectory presented by President Trump today that has raised some questions. The map appears to have an additional line including Alabama that is not on [NOAA's projections](#). Is President Trump's map correct? If not, why not?
