I have more than two dozen of these, many directed at me. FB is off the charts with this.

Mr. Graham,

Your directed remarks in reference to Hurricane Dorian, Alabama, Donald Trump and the betrayal of the science and scientists at the National Weather Service, have destroyed any credibility your agency had. You are no longer an agency that serves the public interest. You are now a political mouth piece of propaganda for the administration.

You're a disgrace.

-Robert A. Steeber, II
